The RG is a special edition that represents Robby's race car style. You are able to configure an LE to have all the same accessories minus the orange cage and suspension while maintaining the customizable wrap.

kfawcett1977 I'm assuming the box can be mounted on either side? I would like to offset my weight.. 325 and a tire on one side.

2h Reply

The bed cargo system is fully customizable and will allow for the spare to be mounted on either side of the bed. It has been designed to accommodate a 35" spare.
