SPEED UTV

**Forged Steel parts:
Bulkhead top and
back plate, door
hinges, brake pedal,
sway bar mount...**

**Here are a few of the forged steel parts ready to
be assembled**

Cast Aluminum Gearbox Housing

**Here are a few of the cast parts ready to be
finish machined**

Upright Assembly:

- **Forged aluminum upright**
- **Universal hub and bearing**
- **Fully shouldered bolts**

The hubs are lug-centric and hub-centric. With a bolt on axle nut retention plate that eliminates the need for cotter pins

Upright Assembly:

- **Forged aluminum upright**
- **Universal hub and bearing**
- **Fully shouldered bolts**

Designed with optimal King Pin and Caster Angle. Minimized bump steer.

Brake Calipers:

- **Dual Piston**
- **Same Mounting points front and Rear**
- **Floating caliper**

Great Stopping Power, Able to lock up all 4 on pavement

Turbo:

- **46mm Inducer**
- **Ceramic Ball bearings**
- **Water Cooled**
- **Oil Cooled**

Reverse Rotation Helps Packaging

Piston:

- **Forged Aluminum**
- **Hard coated piston top**
- **Thick Piston Rings**

Piston Speeds can exceed 20m/s

Alternator Bracket:

- Cast Aluminum

Pocketed and ribbed for light weight and stiffness

Cast Aluminum:

- **Cylinder Head**
- **Intake manifold**
- **Valve cover**
- **Motor Mount**
- **Trans input housing**

Pocketed and ribbed for light weight and stiffness

Steering Wheel:

- **Square Profile for better dash view**
- **Comfortable Grip location**
- **Flat Bottom for increased leg clearance**

Note: Leather color and stitching will be Speed Orange
