Design Presentation: 9

FOR PUBLIC RELAEASE: 05/20/2020

- Factory Race Car
- Tech Inspection Ready
- Can be financed

## List of Parts / Accessories on Race Ready Car, Everything on RG edition Plus:

- Carbon Fuel Cell
- Carbon Body & Bed
- Added Door-Bars, welded clamps
- Aluminum Roof Skin
- Aluminum Firewall
- Window Nets

- Parker Pumper
- Fire Extinguisher
- Tool Bag
- Impact
- Medical Kit
- Safety Equipment
- 12" GPS + Mount

- Front Bumper
- Front Lower Light Bar
- Front Upper Light Bar
- Rear Chase Light
- Spare Tire/Wheel
- Jack

Note: Race ready build only available on El Diablo Model

- Pick Your Colors – (Suspension/Springs/Cage)
- Race Graphics – Personalized with sponsor logos
- Chassis Certification SCORE/BITD (for first year)

Note: All accessories available for purchase individually for upgrade on non-race ready vehicles

- RACE READY UPGRADE WILL BE ON [WWW.SpeedUTV.COM](http://WWW.SpeedUTV.COM)
- WEBSITE MID-JULY
- (Don't call Ginger asking to upgrade yet ;))

# What Car are you upgrading

# SPEED UTILITY

**B Scott Dana** Have a YXZ and 4 quads. Thinking about ditching 2 or 3 of the quads and \*maybe\* the YXZ. Will wait for a 70-72" version 4 seater first though.

**James Ford** I haven't bought a sxs since 2008. Had a prunner sandcar and now a racecar. We were looking at getting a wildcatx but when Robby announced he was building his own we waited to see what it was going to be. If it wasn't for the live feeds every week we wouldn't have bought into it. I would never buy a can am or Polaris rzz. They are junk imo. El jefe 502

Who else is planning on racing their UTT "El Diablo" in the BITD series? Mike Coletto and I will be tearing it up, who's with us!?!?!?

Timothy Kelley I'd like to race in the local races. Got to walk before you run. But Mint 400 would be a blast. Let me know if you do race BITD I'll come help out.

Like · Reply · 3d

Kyle Whitted I will be. Mostly D38 and a few BITD races.

Like · Reply · 3d

Robert Morgan I'm getting the 4 seater and plan on racing it. Not sure what series yet. I'd like to do some SCORE races in the pro stock class but it's a fairly new class and doesn't get a ton of entries yet.

Like · Reply · 3d

Kyle Whitted Robert Morgan that car should shred the stock class.

Baja Mark I will try a few once I get it dialed in....#117 el diablo RG

Like · Reply · 3d

Jimmy Tyner Interested in finding out what the RG pro build race cars are going to cost? Sounded like they would be building them in NC and will be "a proper race car" per RG.

Like · Reply · 3d

Chase Baja Do you think SCORE will force it to make it its own UTT class in order to save its favoritism to other companies (Polaris)? or will it be racing against all other brands of UTVs?

Like · Reply · 3d · Edited

AJ Starsiak Most likely running a UTT RG next year!

Are the cars wired up for rear facing lights.  
Like the ones required in SCORE or BITD?  
Will they have a mounting area for a buggy whip that will be wired for a lighted whip??

**Victor M Herrera Jr.** If we plan on making it a race car can we get the cage raw so we can weld on it add light tabs door intrusion bars and so on.

Like · Reply · 2d

1

**Doris Wells** Pre-fabbed weld in door bars will be available to get cage race legal. Can't speak towards door delete.

Like · Reply · 1d

1

**El-Todd Hainsworth** I like many others really liked the neon yellow that was advertised so much. Could this be another color option for maybe the RG edition?

Like · Reply · 2d

**Timothy Kelley** Depending on where you race, fuel cell, property lights in rear, radio, proper fire extinguisher. Window nets and bars in doors and window nets. What else?

Like · Reply · 2d · Edited

**Auggie Sadorra** 🖐️ Race legal Roll cage?

Weld in door bars with pre-fabbed door delete panels?

**Michael Sulger** I would like to know why Robbie considers this wheel base to be optimal for desert racing. The 110 falls directly between a x3 and a 4 seat rzzr. Having raced both I feel much more comfortable racing the 117" rzzr.

Second question would be on the fuel cell. We need to be able to get 100 miles out of a tank of gas. I'm thinking 25 gallons would be sweet spot. What will be available ... [See More](#)

**Eric Welter** 🖐️ 1.What type of window nets will be provided. Not sure what they are called but one style is the wider 3/4 nylon netting and the other is much smaller like a screen type you can see through. How will they latch?

Like · Reply · 1d

**Eric Welter** 🖐️ Will there be an electrical fuse block ready to add rear chase lights and other accessories? Would it be possible to have a conduit from the dash to the rear or some sort of wire chase? UTT #143 RG

Like · Reply · 1d

**Nate Pearson** 🌟 Will the suspension be different on the race rigs? Spring rates, valving?

Like · Reply · 1d

2

**Jason Cramer** Are the white hot flames coming off tires standard on the LE models or do we have to step up to the RG model?

Like · Reply · 1d

2

**Jason Cramer** Now for my real questions. #1 When the Hell Key is installed is the speed limiter deleted if you're still running 91 octane?  
#2 I really don't want to run E85 because of how alcohol attracts moisture out of the air when it's not in a air tight container and I don't want to drain my tank every time I run it. If I run VP UTV96, will the computer adjust the timing curve and boost pressure for added hp?

Like · Reply · 1d

**Eric N Donna Tofte**  
May 18 at 2:06 PM

Does anybody know if the LE will get a positive pressure roof? I'm surprised that they would make 2 different roofs. I just read it was part of the upgrade for the RG edition.

**Raul Gutierrez** ★ Well alot of people use theyre utvs in the local Christmas parade so having something to help implement christmas lights would be great! Not for me just saying.

[Like](#) · [Reply](#) · 7h · Edited

**John Tommila** On the XX that Robby Todd and Speed developed has pre wired, fussed accessory points which are a great feature that I'm certain will make it into this car. I hope I'm not wrong !
